## EDUCATION

**Universidad Técnica Federico Santa María**

*Associate Degree in Computer Science*

Concepción, Chile

2022 – 2024

## EXPERIENCE

**Full Stack Developer**

*Inspección y Certificación BBF Ltda*

Nov. 2024 – Present

*Concepción, Chile*

- Designed and developed a financial management system to handle invoices, expenses, and investments tailored to the company's internal processes.
- Defined the architecture using **Next.js (frontend)**, **Prisma ORM**, and **SQLite/PostgreSQL** as the database.
- Delivered the solution as an **on-premise deployment**, hosted locally on the client's infrastructure as requested, ensuring data privacy and offline availability.
- Implemented a module to **read PDF invoices**, automatically extract key fields (client, amount, tax, due date, etc.) and store them in the database with structured data.
- Built REST APIs for CRUD operations, automated PDF/Word reports, and interactive dashboards with real-time data visualization.
- Worked directly with stakeholders to gather requirements, plan system modules, and design a modular and maintainable architecture.

## PROJECTS

**Climate Analytics Dashboard** | *Next.js, TailwindCSS, Prisma, Chart.js*

2025

- Built a platform to query and visualize real-time and historical weather data.
- Integrated OpenWeather API with PostgreSQL persistence.
- Deployed on Vercel with interactive interface and dynamic charts.

**Expense Tracker** | *Next.js, Prisma, Supabase, Chart.js*

2025

- Developed a web application to register, visualize, and export expenses.
- Implemented dynamic filters by month, category, and year.
- Enabled CSV/Excel export of filtered reports.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, Python, SQL, HTML/CSS

**Frameworks:** React, Next.js, Node.js, Prisma, TailwindCSS, Chart.js

**Tools:** Git, GitHub, Supabase, Vercel, VS Code, Cursor, ChatGPT, Obsidian

**Databases:** PostgreSQL, MySQL, SQLite

**Other:** REST APIs, Data Visualization, Cloud Deployment
